

# SWEET EARTH ADVANCED POTTING SOIL

*Available in 2 sizes: 1.5 CF & 12 qt.*

## **A unique, ultra-premium, super-charged Potting Soil!**

This potting soil actually contains MicroActive™ the same seven champion strains of beneficial soil microbes plus Ecto and Endo mycorrhizae proven so effective in Sweet Earth organic fertilizers.

Contains the finest blend of all natural/organic ingredients:

Screened Forest Humus, Fir Bark Fines, Canadian Sphagnum Peat Moss, Perlite, Natural Diet Worm Castings, High Country Chicken Manure, Aged Bat Guano, Cold Water Norwegian Kelp Meal, Powerful Seaweed Extract, Valley Grown Alfalfa Meal, Alaskan Fish Bone Meal, Alaskan Fish Meal, Colloidal Soft Rock Phosphate, Naturally Mined Potassium Sulfate, Oyster Shell (for pH adjustment to 6.5, the ideal level for most garden plants).

## **PRIMARY USES:**

- For use in all outdoor and indoor potting and container applications.
- Excellent for use in raised beds and planters.
- May be added to existing soil in containers or pots to improve or enhance soil health, nutrient availability and physical properties.

The long-lasting ingredients are naturally moisture-absorbent while maintaining adequate air space to insure excellent drainage and healthy roots.
